PROJECT SUMMARY

A digital agency specializing in custom development partnered with 84EM to develop an API. They utilized multiple data sources and helped in standardizing the endpoints, data mapping, and handling the logs.

PROJECT FEEDBACK

Despite the multiple last-minute requests from the client, 84EM was still able to finish the project. They were able to meet all the deadlines and create an output that pleased both parties. Their team was diligent and was always up to take on new challenges.

The Client

Please describe your company and your position there.

CEO at a digital agency specializing in custom development and marketing solutions.

The Challenge

For what projects/services did your company hire 84EM, and what were your goals?

Develop an API to power a consumer facing website. Multiple data sources were used. 84EM standardized the endpoints, mapped the data, created error handling, and logs. The website is high traffic and is in a regulated industry.
